A New Year, An "Old Market" Hobby Future Lies With History

The first *Bluesheet* of the New Year always inspires thoughts about the coming year. We leave predictions for those who enjoy being proven wrong more than we do. If the coin market has taught us anything over the last decade, it has been a lesson of unpredictability. A dealer arrives at F.U.N. and finds Gold Spot down $8. Long term, series go in and out of favor, collector ranks swell and thin, Spot rises and falls. Man, being a rational creature, will come up with a rationale for all of these actions; explaining today's actions with yesterday's headlines even works sometimes.

We know that coin prices result from the forces of supply & demand. If demand increases from the combined actions of dealers, investors and collectors, and the floating supply in the marketplace remains constant or decreases, then prices will rise. No surprises there. Experience has also shown that once a market begins to climb, a momentum of demand will create additional increases as more buyers join in. Since dealer budgets don't allow massive purchasing to reduce supply (although dealers nearly always do some buying on their own account), how, then, can dealers create additional demand? Or, to be more specific, how can they create additional demand among investors and collectors?

First, a look at the marketplace environment in 1995. We have a market with third-party grading, so buyers have the added confidence of unbiased grading expertise, and no longer need grading expertise themselves. We have third-party valuations (the *Coin Dealer Newsletter family of publications* being a "third party", since we neither buy nor sell coins), so buyers no longer need pricing expertise. We have growing interest in auctions, which amounts to third-party selling, so buyers have options in addition to local dealers and mail-order firms. All these third parties are in place to serve the first party, the buyer of a rare coin. How do we get that investor or collector to buy more coins?

First a word about investors. Yes, there are some investors out there who simply buy coins for the sake of future price increases. But most buyers who start out this way end up being attracted by the coins. You need only look at any graph of coin prices over the last five years to know that investors interested in coins at the present must be contrarians — buyers interested in buying at the bottom anticipating a future rise. When the market does begin to rise, that will serve as a signal to those buyers who don't mind missing the bottom and are prepared to act once the rally has become widespread. Once they get coins in their hands, these buyers stand a good chance of getting "hooked."

So, in a very real sense, the future of the market depends upon "collectors" buying coins, and a rising market will require collectors to buy more coins. While collector demand has remained relatively steady, the dealers have a major ally in increasing demand — and that is the coins themselves. Coins are neat. They are great pieces of history, of artistic traditions, of economic events, of people and places. By themselves, stripped of ambiance, coins can be cold artifacts. But add just one of the thousands of neat stories that numismatics provides, and the coins come alive with stories of the Old West, the Gay Nineties, the Colonial period. Coins have a story to tell, but they need dealers to tell it — and when they do, the buyers will listen.

CERTIFIED COIN DEALER newsletter

a weekly report on the ***Sight-Unseen*** *certified market*

Vol. X No. 2 January 13, 1995 Single copy price $4.00

Sight-Unseen Starts 1995 Selectively Perry Auction Realizes $2.5 Million

The New Year is off to a ______________ start (welcome to the new, interactive *Bluesheet*, where you get to fill in the blank). The F.U.N. Show produced mixed results for dealers, although nearly all reports tended to the positive side. If you are a dealer specializing in retail sales — especially as a 'fixture on the Convention Circuit' — 1995 probably got off to a "busy" start. If you are a wholesaler who went to F.U.N. with hopes of selling your wares for top dollar, "spotty" might be your choice. If you went to F.U.N. with a long Want List, you had your choice of coins and bargains, so "selective" might be your choice. And if you were affiliated with any of the three auctions held in Orlando, a "strong" start would definitely be your choice. But if you sat at home waiting for the *sight-unseen* market to come alive with the changing of the calendar, it might best be said simply that "the New Year is off." Overall, my choice to describe the *sight-unseen* market is "selectively active", just like last year, and the year before, and the year....

Bowers & Merena hosted the official 1995 F.U.N. auction, The Commodore Matthew C. Perry Collection. In a word, the Perry coins went "wild"; a not unforeseen result of top quality meeting great provenance. Many Perry coins sold for *multiples* of high-estimate, proving that numismatists have a keen sense for history; what finer piece of History to hold in one's hand than a Japanese Ichibu gin collected by Perry during his opening of Japan to the Western world, and kept intact since then in a coin-cabinet formed during the infancy of American numismatics! Wow! Collectors of Colonials certainly appreciated Perry's interest in that specialty; Early Coppers and rare-gold specialists joined hundreds of enthusiastic bidders on the floor competing against a strong book. The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

PROOFLIKE MORGAN DOLLARS

P.L. Dollars may be semi-reflective (on one or both sides) with less reflectivity than the deep mirror Prooflikes. Bids for P.L.s are usually much lower than for DMPL s, but command some premium over non-P.L. strikes.

CERTIFIED COIN DEALER newsletter

Market Quiet Into Long Beach
Activity Anticipated At Current Levels

The coin market remains quiet as the Long Beach activities approach. Coins are quietly trading, but both dealers and collectors seem resigned into the annual lull between January's F.U.N. Show and the first Long Beach Coin Show of the new year. Anticipating the buying opportunities that Long Beach presents, many dealers are gathering Want Lists from their customers as well as doing their best to plan for buying inventory in the stronger market segments. Mint State Gold remains on every dealer's mind, as volatility in the Spot market has been exerting pressure on the prices of rare coins as well.

First and foremost, the Long Beach Coin & Collectibles Expo. (February 2-5) will give collectors of certified material plenty of buying opportunities. Every Long Beach, it seems the Bourse gets a little bigger, and there are more slabs from which to choose. Well, now that it has settled into the new facility, the *Coin Show* is larger than ever, along with the growing sections for other collectibles (stamps, jewelry, sportscards, phone cards, etc.). In addition to the coins on the bourse, collectors will also have their selection from auction sales hosted by Heritage, Butterfield-Johnson-Gillio, and Superior.

Butterfield-Johnson-Gillio will be conducting their first auction (Jan. 31) of United States and World Coins, Medals and Banknotes. Collectors of Gold and California Fractional (90 lots) will find much of interest; certified highlights include:

Heritage Numismatic Auctions will be presenting a pair of sales at the Long Beach Show. A two-session Bullet Sale (Feb. 1 & 2) will open the Coin Show, with the official Long Beach February 1995 Sale (Feb. 3&4) following. The highlight of the sale just may be the 1795 Half Dollar purchased by Major the Lord Saint Oswald directly from the U.S. Mint in the late summer of 1795 and kept in the family until 1964. Certified as an NGC65, the O-112 variety is an outstanding coin on its own; wouldn't it make an incredible display if reunited with Saint Oswald's 1794 Dollar? Other highlights include the following certified coins:

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

THE $5,000,000,000 CUSTOMER SATISFACTION TESTIMONIAL

The Grading Service of Choice

More collectors, investors *and professional coin dealers* choose PCGS than any other third-party service for the accurate grading of their valuable coins. In fact, PCGS has now graded 3,726,801 rare United States and world coins with a cumulative declared insurance value of $5,000,000,000. That's nearly twice the total coins graded by all of our competition combined!

Our track record is a potent testimonial to the benefits we provide to consumers. But numbers alone don't tell the whole story. There are many excellent reasons why PCGS has earned a reputation as the grading service of choice for the rare coin industry.

The PCGS Advantage

Eight years ago, PCGS became the first third-party grading service of its kind. The company's founders coupled the concept with the comprehensive, cash-back PCGS Guarantee of Grade & Authenticity. Then they added coin encapsulation as the best method of reinforcing the guarantee in the marketplace for the life of any PCGS-graded coin.

Today, these creative innovations remain unsurpassed in offering consumers the most reliable form of protection for their coins.

The Highest Standards for Your Coins

Having your coins graded by PCGS has benefits that go well beyond the fundamental advantages of grading objectivity and coin encapsulation.

Because PCGS upholds the highest quality standards in the industry, our clients are assured of grading accuracy and consistency that they can bank on, coin after coin and year after year.

Some people like to say our grading standards are a little strict. But that's a reputation we can live with because when you buy a PCGS-graded coin you can be confident that you're buying a problem-free coin, which has been graded using the most widely accepted grading standards in numismatics.

The PCGS Authorized Dealer Network

PCGS is supported by a network of more than 792 reputable authorized dealers throughout the United States and Canada. They are ready to assist you with PCGS submissions and your other numismatic needs. Your local PCGS dealer can help you screen your coins to determine which coins are right for grading and which PCGS service to use. He will also help you assign a value to your coins for insurance purposes and package them according to PCGS safety guidelines.

Imitation is the Sincerest Form of Flattery

From the beginning, PCGS found immediate success in achieving a level playing field where consumers could participate in the coin market with new confidence. Other grading services soon began patterning themselves after the PCGS concept. But none can offer the overall value inherent in the PCGS product.

We at PCGS believe that not all MS65's are created equal. PCGS invites you to take the PCGS Challenge. Compare the fair market value between a PCGS-graded coin and a like coin in the same condition graded by different services, and see for yourself.

Now is an Excellent Time to Have Your Coins Graded by PCGS

We currently offer a variety of affordably-priced services designed to fit into the structure of today's lower coin market levels. And now is the time to get some of the most favorable turn-around times available through PCGS in recent years.

If you own coins, you owe it to yourself to have them graded by PCGS.

Please contact our customer service department at 1-800-447-8848 for a brochure outlining the advantages of third-party grading, a complete list of PCGS authorized dealers and our list of services.

The MS66 $10 Eagle shown above was submitted by Spectrum Numismatics International. This is the coin which brought the total declared insurance value of all coins submitted to PCGS to more than $5,000,000,000.

Buying Opportunities at Long Beach Cash Customers Still King

A quiet market before a major coin show has some small advantages, such as allowing dealers the opportunity to contact their customers and update Want Lists, or getting inventory ready for the bourse. One dealer tried to make light of California's well-publicized recent inclement weather by asking us if this quiet time was 'the lull before the storm'! Well, the rains are continuing in California this week, but no one is predicting clouds inside the Long Beach Convention Center - although it just may be large enough to have its own weather patterns! Any predictions for the Long Beach Coin & Collectibles Expo (February 2-5) must include smiling faces, because collectors of certified material will have an abundance of buying opportunities.

Dealers seem to be anticipating a "buyer's Long Beach"; steady demand in the market continues, but scattered discounted sells across the charts continue to "pick away" at Bid levels. This week, throughout the *Bluesheet*, minus signs outnumbered advances more than two-to-one, but as has been the case for months, 95% of the Bid levels remain steady! Silver Commemoratives still lack any real display of new demand, with prevailing levels holding despite some discounted selling. Gold Commems are showing the same lack of new demand, with declines making the market appear weaker. Both Morgan Dollars and Peace Dollars remain largely unchanged, although here too, the declines (although small in number) outnumber the advances. Changes on the Mint State Type, Mint State Gold Type, and Proof Type charts were evenly divided between advances and declines. Each of the charts for the specialty series likewise show most of the small number of changes to be declines.

Despite this negative spin, *many* dealers are doing business at levels ***well above*** Bid. As we have long noted, dealers are willing to pay a premium above *Bluesheet* for the opportunity to examine coins before committing to purchase — that is the basis of *sight-seen* vs. *sight-unseen* trading. Coins with the "right look" or the "right date/mintmark" will bring a higher price from the dealer with that specific demand (especially the dealer with an anxious customer). On the other hand, buyers with wide-ranging demand and fat wallets will be able to engage in substantial negotiations.

In addition to the Heritage and Butterfield-Johnson-Gillio auction sales previewed in last week's *Bluesheet*, collectors have plenty of certified coins on which to bid in The Premier Auction Sale hosted by Superior Stamp & Coin (January 30-31). Certified highlights include:

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the week prior to publication (*w*eek old); "**m**" – Lowest asking price during the previous three weeks (*m*onth old); "**t**" – *T*rade during the most recent month; "**lm**" – Lowest asking price appearing *l*ast *m*onth; "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade older than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Enthusiasm Growing For Long Beach Coin Show Butterfield-Johnson-Gillio Sale Tops $580,000

A dealer friend was talking about the Long Beach Coin Show; actually, to be more precise, he was talking about *just before* the doors opened to the dealers at the Long Beach Coin Show. Dealer "set-up" at a major show can be a very interesting time, although not for the 'faint-of-heart.' Dealers with bourse tables who specialize in retail need to gather their coins and get them on display; dealers who are more interested in wholesale transactions can begin the hunt for coins and/or checks. Dealers who do both need to have finished set-up yesterday. Either way, there is a tremendous commotion feeding on the high energy levels of the dealers, and initial reports note that dealers seem "very keen" to get Long Beach started.

By the time the front doors open for dealer set-up, some of the wholesalers have already had a successful show. We refer to the "hotel-room bourse," where dealers can meet for inventory inspection and negotiation. Security concerns have made this perhaps less popular than in the past, but dealers 'free' time before a show has grown along with the number (and size!) of the typical pre-Show auctions. These early auctions provide dealers with new inventory to "work up," as well as added material to sell.

Speaking of pre-show auctions, Butterfield-Johnson-Gillio held their first auction on January 31, and all parties seemed quite pleased with the results. The pre-sale estimate of $385,220 was easily exceeded; when the final lot was hammered to the very determined crowd of floor bidders, the total Prices Realized passed $580,000. About 100 Bidders, both dealers and collectors, showed active interest in the wide range of coins offered. The last paddle in the air for many of the certified lots belonged to dealers; while they were equally interested in the many lots of rare-date collector coins, the dealers simply couldn't outbid the determined collectors on the floor. This was especially noticeable in the early copper coins, the early silver, and the mint-marked Nineteenth Century silver. B-J-G was especially proud that only 14 lots remained unsold at the end of their first joint sale.

Among the B-J-G highlights:

ISSUE	GRADE	PRICE REALIZED
1877 Indian Cent	PCGS63RB	$2,090
1792 Half Disme	PCGS15	$6,875
1921-S Buffalo 5¢	PCGS63	$1,980
1923-S Buffalo 5¢	PCGS62	$523
1796 Bust Quarter	PCGS50	$13,200
1919-S 50¢	PCGS63	$4,950
1921-S 50¢	PCGS62	$10,450
1852 $5	NGC61	$1,100
1799 $10	PCGS55	$7,700
1872-CC $20	NGC50	$2,640

In their 'free' time before the doors open, dealers also talk among themselves to gain additional perspective on the market. As in all information-gathering exercises, it is critical to know your source. The dealer who is always glum speaks volumes when he allows that the show 'isn't half bad.' The dealer who is always up-beat about the market has to show ecstasy before his friends take notice. Mostly though, the pre-Show gatherings give dealers the opportunity to trade notes about recent acquisitions, and to begin to generate enthusiasm for the new wares for sale. We don't expect to hear many complaints about the lack of new material, as this Long Beach should benefit from the several large auctions held recently, as well as those just concluded.

Long Beach Coin Show Quietly Successful Buffalo Nickels Continue to Lead Advances

The sight-unseen markets were fairly quiet this week, as dealers were more concerned with getting home from Long Beach and 'working-up' their purchases. Most dealers reported a successful Long Beach, although the degree of success seemed to be correlated to the percentage of retail customers a dealer has cultivated, or to the depth and breadth of their Want Lists. Retail customers had plenty of buying opportunities on the bourse and on the auction floor. It may be a sign of the times, or of the expanded role of the Long Beach Show (into other collectibles), but more dealers seemed to have interesting *non-numismatic* items in their cases. Part of the fun of collecting coins is that it exposes us to other neat pieces of history, and this trend may encourage some *antique* collectors to include coins in their collecting interests.

Buyers at the auctions bid 'early & often' on certified coins, with spirited floor bidding. During Long Beach "week", Bidders interested in certified U.S. coins had four major sales to consider; consider & Bid, with total auction Prices Realized for the four sales exceeding $5.8 million. Superior's Premier Auction Sale contained many familiar collector classics, and collector Bidding was also strong at Heritage's Signature and Bullet sales held at the Long Beach Coin Show.

Buffalo Nickels were clearly the market leader during 1994, and they show every sign of doing likewise thus far in 1995. Just as in 1994, the Buffs are accounting for a very large percentage of all advances in the *Bluesheet*. And just as their upward progress during 1993 and 1994 was characterized by 'fits & starts', so it has been in 1995.

So far in 1995, the Buffalo Nickels have enjoyed 194 advances to 80 declines, distributed thusly: Jan. 6, 55 '+':10 '-'; Jan. 13, 0 '+':20 '-'; Jan. 20, 46 '+':10 '-'; Jan. 27, 6 '+':13 '-'; Feb. 3, 65 '+':23 '-'; Feb. 10, 22 '+': 4 '-'. The trend is clear, as is the cyclical nature of the advances. In a small market such as high-grade Buffalo Nickels, the actions of a very small handful of market leaders are clearly chasing the market up; in much larger markets, such as Morgan Dollars or Mint State Gold Type, the actions of individual players are much less apparent.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity, including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder In these cases a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective (on one or both sides) with less reflectivity than the deep mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's but command some premium over non-P/L strikes.

WALKING LIBERTY HALVES

If your coin will stand on its own merits regardless of the certified grade, a higher *CDN* Bid may be more indicative of current market value.

A MESSAGE OF VITAL IMPORTANCE

From: Frank Greenberg, President
Delaware Valley Rare Coin Co., Inc.

The Industry Council For Tangible Assets (the industry's trade association which is commonly known as ICTA) is dedicated to watching out for the future of the coin and bullion industry. ICTA was founded in 1983 after a totally unexpected change in our nation's laws resulted in the elimination of coins and bullion from most individual retirement accounts such as IRAs, KEOUGHs, etc. The industry realized (rather belatedly) that they needed a Full Time Voice in Washington looking after their interests.

Since its inception, ICTA has had a positive impact on the coin and bullion industry. To give you an example of just one of ICTA's accomplishments, two years ago, ICTA's actions resulted in changes in the coin & bullion reporting requirements. Before ICTA succeeded in changing the law, dealers had to report the purchase of even a single U.S. silver dime if they bought that dime in their store from the public. As ridiculous as that law may sound, it took plenty of time, money, and politics to get the law changed once it was "on the books." But now, thanks to ICTA's efforts, the law makes sense and only large transactions with the public need be reported.

In keeping with the times, ICTA is lean and mean. Their staff consists of only two people - Executive Director Eloise Bredder and Industry Affairs Director Diane Piret. ICTA is currently working on a number of important issues. They are monitoring (among other things) potential Congressional legislation pertaining to the Interstate Collection of Sales Tax; the Value Added Tax (VAT); and Capital Gains Tax. ICTA is also working with a coalition to change the legislation so that coins and bullion can once again be included in individual retirement accounts. Due to space constraints, I can't list all of ICTA's past accomplishments or all of their goals for the future. And while you may not benefit directly from each and every issue that ICTA tackles, I'm sure you'll agree that the existence of ICTA is important to the well-being of every collector, investor, and dealer.

ICTA is funded primarily through membership dues. Right now, those dues are not covering the costs of running ICTA. From everything that I have been told, unless ICTA gets an infusion of capital in the near future, it won't be able to continue its vital work. ICTA Needs Your Financial Support. If you are not a member, become one. If you are a member, increase your dues or send ICTA a check to help them through this crisis. For as little as $25 a year, any private individual can become a member of ICTA. For $250 a year or more, any dealer can become a member of ICTA. I know that no one likes to spend money on an intangible, but can we really afford to lose our voice in Washington? The way I see it, if everyone pays their fair share, the cost of keeping ICTA financially sound won't be that great. To find out more about ICTA and what you can do to help, please contact Diane Piret at (504)-682-6818 or you can write to her at:

Sight-Seen Trading At Higher Levels
Upcoming Auctions Showcase Slabs

The coin market continues mostly stable at current levels, with more coins trading on a *sight-seen* basis (at higher levels) than *sight-unseen* (at current levels). Also, more non-generic coins ('rarer' coins) are trading dealer-to-dealer *sight-seen*, continuing a trend noted for several years. Generic Types, especially when purchased in quantity, will show little difference between *sight-seen* and *sight-unseen* Bid levels. For 'rarer' coins, dealers are willing to pay increasing premiums for the opportunity to inspect the merchandise. In fact, one dealer has pointed out the spread between the two Bid levels can be a pretty effective indicator of rarity! On the bourse floor, dealers will look at every coin they purchase, whether 'Generic' or 'rarer'; Generics rate a quick look, and 'rarer' coins warrant a closer inspection. This is a logical response to the reality that retail customers are also going to inspect the coins carefully, and the more valuable the coin, the more careful the retail inspection.

The closer inspection of coins by dealers is also a logical response to general market conditions. There are abundant supplies of coins in the marketplace; naturally, the more generic the coin, the greater the current floating supply. Dealers have choices in their buying, and it makes sense to search for the best combination of quality and price. Additionally, dealers want to be able to offer their retail customers superior quality coins. Dealers are eager to make every customer happy, and don't want to risk making a customer unhappy by offering coins of lesser quality.

Demand at auction sales continues strong, and buyers of certified coins will have an abundance of choices in the immediate future. Heritage Numismatic Auctions will be presenting a Bullet Sale at the Santa Clara Coin Show (Feb. 24) as well as the Early Spring 1995 ANA Sale in Atlanta (March 2-4). Stack's will be auctioning United States Coins, Featuring Selections from The James A. Stack, Sr. Collection in New York (March 15-16). Auctions by Bowers & Merena will be hosting the Herman Halpern Collection at the Suburban Washington/Baltimore Coin Convention (March 24-25), as well as Part II of the Armand Champa Library (March 23).

Heritage's Early Spring 1995 ANA Sale is particularly strong in Certified Type coins and U.S. Gold. We list herewith a few highlights from the *Silver Dollars* to be offered, which will be attracting a bit of attention as well! Having a choice between an 1892-S and an 1893-S Morgan Dollar is exciting enough; even more so when there is a choice of Mint State 93-S Dollars! Bidders will have to choose between MS64 and MS65 specimens! Here's the chance to get started on the ultimate grading set!

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight unseen Bids, Asks, Trades, prior levels and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

INVENTORY HIGHLIGHTS

1859 PCGS PR-66 (Copper-Nickel) Indian Cent PCGS/NGC Population: 5/0
An outstanding example of this elusive one-year Type coin. While PR-65 specimens are hard to find, examples in this condition are almost non-existent. Beautiful, coppery-red surfaces. This might be your only chance to own one of the best examples **$8,950.00**

1866 (Rays) PCGS MS-66 Shield Nickel PCGS/NGC Population: 2/1
Possibly our favorite purchase in terms of value. The coin is just one of three examples in this tough, two-year series to grade MS-66 at the services and none have been certified higher. Immaculate surfaces with the lightest hint of original color **$6,390.00**

1924-S PCGS MS-65 (Full Bands) Mercury Dime PCGS/NGC Population: 4/1
One of our best acquisitions! One of just four pieces to be awarded this grade at PCGS. Exquisite, brilliant surfaces and one of the scarcest dates in this ever-popular series. It will certainly end up in one of the country's finest collections **$8,400.00**

1917 (Type II) NGC MS-66 (Full Head) Standing Quarter PCGS/NGC Population: 15/7
A much tougher find in this condition than the Type I example. Brilliant surfaces displaying nice cartwheel lustre and strongly struck details. **$1,995.00**

1933-S PCGS MS-66 Walking Liberty Half PCGS/NGC Population: 20/15
Although we handle many of the better-date Walking Liberties in the finest condition, most are sold immediately to want list clients. However, we are proud to offer this tough date which is drenched with brilliant lustre. Don't miss this chance to add this date to your awesome collection **$4,590.00**

1923-S NGC MS-65 Peace Dollar PCGS/NGC Population: 30/29
Better date Peace Dollars remain one of the best values available. The '23-S ranks among the rarest in the entire series. We have a gorgeous, satiny-white example **$2,750.00**

Hawaiian Commemorative NGC MS-66 PCGS/NGC Population: 16/12
Commemorating the 150th anniversary of the discovery of the Hawaiian chain. Perhaps the key to the early silver commem series. This piece is an outstanding example, full of mint lustre and devoid of all but the lightest original patina. The fresh, clean surfaces wonderfully display the beauty of this great design **$8,900.00**

1901 PCGS PR-66 $10 Liberty Gold PCGS/NGC Population: 1/0
Proof gold, perhaps more than any other area in numismatics, captures the heart as well as the eye. This splendid U.S. rarity comes from a mintage of only 85 coins. As the finest known, this coin displays exceptionally a strong cameo appearance and its large size gives it a 'deserving' look worthy to be the centerpiece of any World-class collection **$47,500.00**

The World's Most Important Coins Are Graded by PCGS...Are Yours?

Why are the world's most important coins graded by PCGS?

Because when a discriminating collector goes to the ends of the earth to select the finest known coins for his collection, you can bet he's going to insist on having those coins graded by the most respected and reliable third-party grading service in numismatics — the Professional Coin Grading Service.

But regardless of the size or significance of your collection, we know the importance you place on your coins. We grade each and every coin with equal care — regardless of value or pedigree.

And like the coin pictured here, your personal numismatic masterpieces deserve to benefit from the strict, unwavering grading standard upon which PCGS has built its reputation.

Like the beauty of this coin, PCGS's grading standard has withstood the test of time — and the rigorous demands of the rare coin marketplace — because PCGS's standard remains constant through all market conditions.

PCGS represents professional integrity and grading accuracy to coin buyers and sellers throughout the rare coin community. Time and again, more professional coin dealers, the finest auction houses, the country's most noted collectors, and the coin-buying public depend on PCGS to grade their important coins. The confidence they have shown in our product proves that PCGS is the grading service of choice!

PCGS's grading staff is renowned for its expertise and is comprised of many lifetimes of experience in all facets of numismatics. Assigning the proper grades to our customers' coins has always been our first priority.

And nowhere is PCGS's ongoing commitment to consumer protection and satisfaction more evident than in its cash-backed Guarantee of Grade and Authenticity.

PCGS grades coins from the United States and more than 80 foreign countries. We offer a variety of super-fast turn-around and economy services starting at only $15 per coin. Contact the PCGS customer service department at 1-800-447-8848 for a free list of PCGS authorized dealers nationwide who can assist you in determining which services are right for your coins.

So whether your numismatic masterpiece is worth $50 or $500,000, your coins deserve to be graded by PCGS because every coin we grade is an important coin.

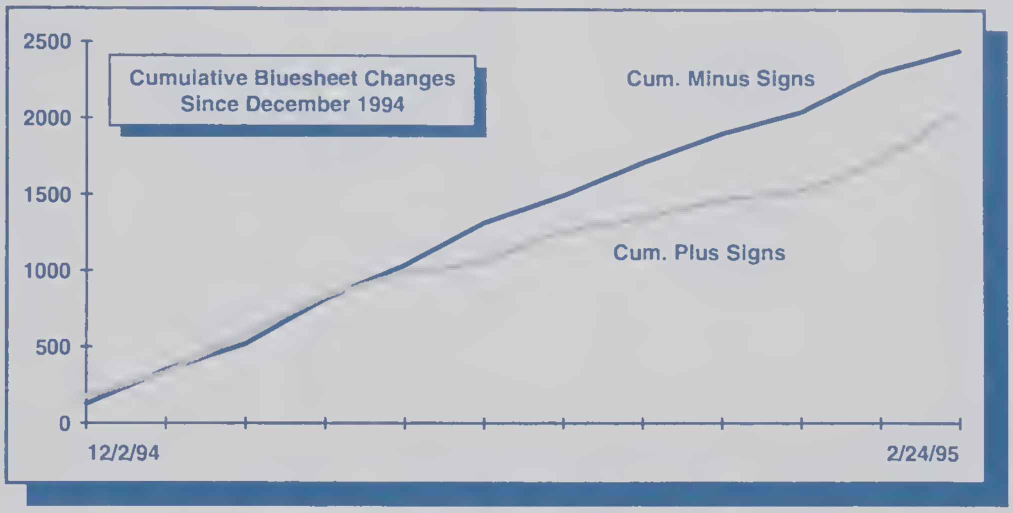
Plus Signs Are Welcome Sight in Market Mini-Surge from Widening Demand

Arrival of Heritage's catalogue for the Early Spring ANA sale reminded us that 1995 is marching right along; after two months, how does the year look? It looks as mixed as ever — but then again, what can you say about such troubled times, when the stock market *rises* on news that demand and business are cooling off! Dealers have been 'grousing' that January and February *seemed* a little more negative than expected. Since the first *Bluesheet* of 1995, the overall ***CMI*** has declined from 688.27 to 685.05, a slow 3.22 slippage. This slight decline is also apparent in looking at the cumulative count of Plus and Minus signs since the beginning of the year. Actually, our graph starts in December, to show just how much the changes were in balance during December; starting in January, the cumulative count of declines began to assert itself. Keep in mind that most of these declines represented fairly small drops, caused mostly by discounted selling.



So, naturally, this market being as perverse as it is, after we run the numbers and charts to investigate the market trend, this week ends up strongly positive! Advances outgunned declines more than two-to-one, with more than half of the charts ending up positive. This is welcome news, as is heralded by the first increase in the overall ***CMI*** to be seen this year.

The largest number of plus signs can be found on the Morgan and Peace Dollar charts. This is an especially welcome sight to dealers, as market vigor is always most favorable when found on the key areas of Mint State Gold and Silver Dollars. Especially noteworthy is that many of the Dollar advances have come from leading specialists in the field, indicating a growing assumption that many issues are just "too cheap" at current levels. Most of the Dollar advances occurred in MS65 and below, and most were on better dated coins. We note specifically that these advances were not the result of "dollar" changes in generic levels, which experienced dealers know can produce a large number of advances (or declines) with very little actual difference in the marketplace. Advances on the Peace Dollar chart also congregated in the coins graded MS65 and below. The Gem coins are trading, but they are not to be found in the *sight-unseen* market.

The Mint State Gold charts turned in a mixed performance on the 'South side of steady', with virtually all of the changes (advances and declines) coming in the MS65 and below columns. Since January, Mint State Gold has been having a tough time deciding on a direction, at least for more than one week at a time.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer–to–dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the *w*eek prior to publication (week old); "**m**" – Lowest asking price during the previous three weeks (*m*onth old); "**t**" – *T*rade during the most recent month; "**lm**" – Lowest asking price appearing *l*ast *m*onth; "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight–unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

During 1994, the Heritage Companies enjoyed rare coin sales of $125,549,612 which is to our knowledge, more than double our nearest competitor.

We Must Be Doing Something Right!

During 1994, Heritage Rare Coin Galleries sold over $103 million in rare coins. *For dealers, collectors and investors alike — Heritage's reputation for fair and honest dealings and unbeatable selection, pricing and service was what they were looking for. Little wonder. Our $15 million inventory is the world's largest, and offers discriminating buyers an unprecedented selection of both certified and uncertified coins.*

HERITAGE RARE COIN GALLERIES

Heritage maintains nine buying offices across the United States and Europe, with an unparalleled network of sources for the finest coins available on the world market. It stands to reason that for us to maintain an inventory of this scope and size, we must be paying top prices. If you have coins for sale, give us a call first, to find out just how good our buying prices are

Our selling prices are up-to-the-minute — constantly in touch with the market. And our service? We ship all our packages via next day air, so you'll get them with both speed and certainty. Plus, our financial strength allows us to offer extended payment terms to our credit-worthy customers.

We appreciate the confidence you have shown in us over the past year. If you haven't yet dealt with us, we urge you to give us a try in 1995. We'll do everything we can to demonstrate the qualities that have made us the largest rare coin dealer in the world.

Our auction subsidiary, Heritage Numismatic Auctions recently began its 20th year in business, concluding 1994 with a record $22.5 million in sales. *The past year also saw Heritage conduct its eighth summer ANA auction since 1980 with a record-setting $8.3 million sale. And the best is yet to come, for Heritage Numismatic Auctions has planned 21 sales in 15 cities across the country for 1995, including the fabulous Summer ANA Sale in Anaheim, California. Heritage has truly become America's Numismatic Auction Company.*

HERITAGE NUMISMATIC AUCTIONS INC

Our innovative Bullet Sales and spectacular Signature Sales have become fixtures at every major numismatic convention of the year. From the January F.U.N. show, through the Long Beach Expos, the Early Spring ANA, the East Coast Expositions, the National Silver Dollar and National Gold Conventions, and finally to the summer ANA convention, Heritage Numismatic Auctions is there with a major offering of the finest material available on the market.

Of course Heritage is more than just a corporation. It's made up of individuals who realize that successful companies are made by satisfied customers. More than anything else, this customer-orientation is responsible for Heritage's growth over the past two and a half decades. We're here for the long haul, and we know the only way to succeed and prosper is to continue to please you!

FINANCIAL STABILITY

Heritage Numismatic Auctions is a member of the Heritage Family of fine companies, the nation's largest and most financially secure dealers in rare coins. With an equity of over $2[illegible] million, total assets in excess of $30 million and annual sales of over $120 million*, you can rest assured that upon settlement, you will be paid in full, and on time. We have never missed an on time payment in 20 years to over 7,000 consignors.

In addition, Heritage Numismatic Auctions is able to offer an optional performance bond through Lumberman's Mutual Casualty Company (an affiliate of the Kemper National Insurance Companies). This policy assures that you will receive either the proceeds of your auction consignment or the safe return of the consignment.

Heritage's enviable record of financial integrity has been proven time and again over the past twenty years, and offers you both peace of mind and the absolute assurance that there will never be an "unpleasant surprise" at the time of settlement.

**Heritage is the only numismatic auction company with certified financial statements (audited by Arthur Andersen)*

PCGS Proof-65 - Finest Known

Dwight Manley Inc. has the distinct pleasure of offering this unbelievable masterpiece to you today. What many call the most desirable coin in numismatics, this stunning cameo rarity truly is a piece of art. The obverse appears to be a jet-black ocean surrounding an island of blast-white whipped frost. The reverse exhibits a light patina, perhaps from decades of rest in an antique coin cabinet.

With a miniscule total mintage of only 828 pieces in Proof and business strikes, it is easy to understand why PCGS has only witnessed 5 pieces passing through its census. With common dates previously trading in the $100,000+ range, and currently still garnering around $50,000, we feel our asking price to be extremely fair. Please call today to confidentially discuss our trade and lay-away options. Available exclusively from Dwight Manley Inc.

Strengthening Market Mostly Steady Few Changes Yield Mixed Results

The market is showing some contradictory signs, as the nation's leading dealers and collectors gather in Atlanta for the ANA Early Spring Convention. Initial reports anticipate a "Collector-oriented Show," with both wholesale and retail buyers continuing to be "*selective*". This selectivity has increasingly been on dealer's minds; as long as coins are abundant and dollars short, dealers know their inventories must contain *attractive* coins. With so many coins trading sight-seen, dealers know that they are going to have a hard time selling less-attractive coins; that much will be painfully obvious to any sellers trying to unload below-average specimens. In fact, at a major show with hundreds of dealers on the bourse, it may even be difficult to sell average looking coins - at least at desired levels. On the other hand, *really attractive* coins can be found selling well above the *Bluesheet*'s sight-unseen levels.

The sight-unseen market continues to enjoy broadening support (more bidders at, or just below, current levels), an important demonstration of strength. The number of such "confirming" Bids on important charts, like Morgan & Peace Dollars, is higher now than anytime in the last few years. At the same time, small changes in some Generics have resulted in more declines than advances. Let me repeat this point. The Morgan Dollar chart enjoyed more (and higher) Bids this week ~ perhaps twice as many such Bids as could be found a year ago; yet, the week brought only 27 advances against 67 declines. We have cautioned on many occasions against over-reliance on the raw plus/minus count (although we too use them); sometimes, their impression is simply contradictory to more important realities.

Other areas enjoying added strength are the Gold and Silver Commemoratives, and both charts are also showing more declines than advances this week. Again, none of these declines demand concern, but they remain annoying. The declines in the Gold Commemoratives are raising some dealer eyebrows, as the general consensus was that most of the downward possibilities had already been squeezed out of this series. Overall, many agree that "much of the risk has been removed from the market since 1988/89" as one dealer noted this week; with coins selling well-below their previous highs, the possibilities for future advances seem increasingly viable.

Mint State and Proof Type, while perhaps not quite as well supported as Dollars and Commemoratives, also showed more declines than advances this week. Good thing there were few changes (in total) this week! With 95% of all Bid levels steady and another 2% rising, a decline on 3% (including the 'overstated' reaction when Generics move) of the Bids is no cause for concern. Sure, dealers would rather see ratios like the 118 Advances-to-15 Declines on the Buffalo Nickels, but that just doesn't reflect this market. Any way you slice it, 97% steady and rising sounds pretty good.

We'll know more next week, but dealers' attention remains focused on the movements in Mint State Gold Type. This critical component of the market seems to reflect the overall confusion, with weeks of advances interspersed with weeks of declines interspersed with weeks of mixed activity. For what it's worth, the Mint State Gold chart produced 18 advances and 24 declines this week; overall, sounds like a healthy market in motion.

Collectors Buying at ANA Early Spring Convention Heritage Auctions Meet With Great Success

Retail customers are sending a consistent message to the dealers: "Yes, we like '*collector*' coins, and yes, we like *certified* coins, and yes, we really like *certified collector* coins. But, what we really like is the ability to first inspect those *certified collector* coins before we decide if we wish to add them to our collection." There is an abundance of material in the marketplace, and most collectors can afford to be "choosy". With Want Lists much longer than their budgets can accommodate, the retail buyers are taking advantage of the opportunity to shop around. And while some are comparison shopping on price alone, most are intelligently evaluating quality, appearance, and value. Today's collectors like the security of the certified grade, to be sure, but they are taking those grading opinions as just one component in their purchasing decisions. For most collectors buying most coins, sight-unseen buying remains an alien concept; plain and simple, they want to inspect the merchandise — just like in the good old days!

The ability to view lots is one of the reasons that auctions have grown so popular (although certainly not the only reason — witness the growing number of mail bidders as well!). Anyone who doubts this has never waited in a long line for a turn to view the lots! It's open to speculation whether viewers spend as much time on certified lots as on raw coins, but it is sure that they do carefully inspect the slabs. At Heritage Numismatic Auctions' 1995 Early Spring A.N.A. Sale, held last week in Atlanta, there were some incredible slabbed Gem Morgans available for purchase (more on these below). You don't need a second opinion to know that a Gem 1897-O is a rare coin. And there is security in the knowledge that PCGS assigned this rare coin the lofty grade of MS67 — after all, they have looked at millions of coins. And Heritage's quality catalogue photography left no doubt that this is a very lovely coin. All that is true, and important, as is the certainty that a potential buyer is still going to want to look long and hard at this coin before spending $62,700 hard-earned dollars.

Heritage Numismatic Auctions 'hammered' two auction sales in Atlanta, a small Bullet sale ($315,324 total Prices Realized), and their "signature" Early Spring A.N.A. Sale (with total Prices Realized of $3,234,120 reported). The catalogue presented the opportunity to acquire most of the "ultras" — you know, the ultra-rare ones with the ultra-high price tags. Most of these incredible Gems went home to new owners. Among the Morgan Highlights:

Issue	Certfied Grade	Price Realized
1879 $1	NGC Pr67	$12,100
1889-CC $1	PCGS64PL	$25,300
1892-S $1	PCGS65	$57,750
1893-S $1	PCGS64	$74,250
1893-S $1	PCGS65	$154,000
1895-O $1	PCGS64	$34,100
1901 $1	PCGS64	$50,600

Heritage's "signature" sale was also rich in quality gold, both rare date and high grade specimens. Among some of the more interesting lots:

Issue	Certfied Grade	Price Realized
1853 $1 Gold	PCGS67	$14,300
1857 $1 Gold	NGC pR63	$9,350
1831 $2.50	NGC63	$9.350
1834 Classic $2.50	PCGS65	$23,100
1859-S $2.50	PCGS63	$13,200
1911-D $2.50	PCGS64	$12,100
1812 $5, Wide 5D	PCGS64	$15,400
1907 $5	NGC67	$11,000
1913 $5	PCGS Pr66	$21,450
1801 $10, Wide Date	NGC61	$7,810
1871-CC $10	NGC62	$44,000

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective (on one or both sides), with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

CERTIFIED COIN DEALER newsletter

a weekly report on the ***Sight-Unseen*** *certified market*
published by the Coin Dealer Newsletter (est. 1963)

Vol. X No. 11 March 17, 1995 Single copy price $4.00

Holding Pattern Continues
Sight-Seen Strength vs. Discounted Sells

While we are seeing some real signs of market support at current *sight-seen* Bid levels, *sight-unseen* levels continue to be chipped away by discounted sells. As has been the case with this trend, there are no precipitous drops or alarming declines - just a scattering of minus signs created when dealers are willing to cut profits to make sales. One dealer has likened this to a swarm of mosquitoes: "none of the bites will kill you, but cumulatively, they can get pretty annoying!"

In last week's ***Bluesheet***, we discussed the consistent desire of retail customers to purchase their coins *sight-seen*, after careful inspection and reflection on the certified grade. Several dealers commented upon this process, stressing that the "big-buyers" among their collectors are adamant about this inspection, and that in many cases the "look" of the coin is more important to a successful transaction than the selling price. The dealer Bidding on a coin *sight-unseen* has no such opportunity to be "choosy". Dealers have always factored into their *sight-unseen* Bid levels the possibility of receiving a coin with less than desirable characteristics; part and parcel is their response with *sight-seen* levels that are virtually always higher than *sight-unseen* levels.

Today, with collectors demanding ever-higher quality and eye-appeal, the premium that dealers must be willing to pay is climbing. Conversely, *sight-unseen* Bid levels are seen to be dropping slightly to accommodate the greater risk of sales not being concluded by "choosy" customers. As one dealer pointed out, "***Bluesheet*** levels are 'rock bottom' starting points, and should not be confused with the levels that collectors will need to pay for the nicer coins that collectors want to buy." We tend to view ***Bluesheet*** Bids as being for coins that normally are average, or less than average, for the grade, but we understand the sentiment.

Silver Commemoratives were hit hard by discounted selling this week, with many small declines, especially in the MS65 & MS66 grades. Gold Commems had a few scattered drops, looking positively healthy next to the Silver Commems. Morgan Dollars were 98% steady and even showed some advances; however, the changes are dominated by slight declines (a few generics slipped) in the better grades. Peace Dollars advanced on strength in the MS64 & MS65 generics. Mint State Type also remained steady, with a few discounted sells scattered across the charts. Mint State Gold Type continues to confound dealers, with declines outnumbering advances nearly three to one; while many of the declines are in the 'lesser uncs', these do not seem to be the result of changes in Spot.

Proof Type was largely steady, but nearly all of the few changes were slight declines; this chart isn't unhealthy - it just never seems to *look* healthy. Here again we have to note that it is *possible* to have an incredibly healthy market without *any* plus signs, but in our experience the two seem to go together. There were no changes on the Proof Gold Type chart, and that really must be viewed as 'good news' in a market plagued by scattered drops. Buffalo Nickels continue to enjoy the attention of a few specialist dealers, with this chart accounting for nearly half of this week's advances. Mercury Dimes and Walkers, conversely, sport scattered drops. Changes on the Proof Singles chart were mixed on the minus side.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight–unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Featuring Circulated and Uncirculated United States Coins
A census of more than 3,500,000 coins graded by PCGS

Know More About Your Coins

More coin collectors, investors and professional coin dealers choose PCGS than any other third-party grading service in the world for the accurate grading of their valuable coins. In fact, PCGS has graded more coins than all the other grading services combined. Now, all this population data is available to you through the PCGS Population Report.

Benefit from New Features

Today, the PCGS Population Report is even better than ever. This guide has just been redesigned into a format that is even more valuable and "user friendly."

You now get population data every month for both circulated and uncirculated coins in the PCGS Population Report's new landscape format. Grades are now listed together from 1 to 70 every single month.

Quarterly reports (January, April, July, and October issues) contain census data for all U.S. coins, including patterns, modern issues, and territorial issues.

New columns, which include expanded mintage figures and grading totals, have also been added to make this reference guide even more useful.

The easy-to-read, step-by-step User's Guide helps you get the information you need from the PCGS Population Report. A comprehensive Glossary of terms is also included which defines abbreviations and individual characteristics of your coins.

Balanced Trading Defining Market
Buffs Still Moving Upward

The overall coin market continues steady, and dealers and collectors alike are probably pretty bored with reading about the minus signs being created by discounted selling; we know we are. Seriously, this trend is providing many (OK, strictly speaking, *most*) of the changing prices in the marketplace, but there just isn't very much excitement in what is happening. Some scattered coins on some scattered charts are declining some small amounts — where's the headline in that? Bad news can be exciting, but there aren't enough discounted sells for even that! One thing is sure: the scattered nature of the declines means that it is very difficult for dealers to adjust their inventories for protection, and the dealers with larger inventories stand a greater chance of running into some of the declines. This part of the market is not fun.

The parts of the market that are fun are providing dealers with steady retail sales. There have been some very exciting auctions providing fresh material. Collector demand has been steady, although sometimes difficult to predict; classics like Morgan Dollars and Walking Liberty Halves continue in demand, but they aren't a sure source of advances. Commemoratives have been collector favorites over the years, and steady demand is reflected in over 95% of levels this week remaining steady; still, it cannot be considered a source of "good news" when you have only 3 advances competing against 55 declines (however slight). Morgan and Peace Dollars were 97% steady, and were largely balanced between pluses and minuses, but it's going to take more than stability to put smiles back on dealers' faces.

Mint State Type and Proof Type were likewise steady, and likewise are showing more of those small, pesky discounts. Mint State Gold Type, which has been having trouble deciding upon direction for far too long, turned in a positive week; a dozen more, and we'll really have something. Mercury Dimes turned in a positive performance this week, while Walkers slipped a little.

Selected demand on Buffalo Nickels continues to provide the market with an abundance of plus signs (nearly one-third of this *Bluesheet*'s advances). With low population coins, it only takes a few Bidders seeking these rarities to drive prices ever-higher. This same phenomenon can be seen on the auction floor when two determined Bidders each seek ownership of a unique item. With coins of the highest quality, even a substantially increased Bid cannot be certain of enticing additional coins into the market; such Gems may not exist, may never have been certified even if they do exist, or may be ensconced in long-term collections. Either way, with coins that have a low or no floating population in the market, it is possible to see Bids growing ever larger without any money changing hands!

The bottom line is this. The last two years have shown an overall market slipping ever so slightly, but collectors have figured out that now is a great time to buy coins. The odds of their purchases holding steady — or rising — are greatly in their favor, but of greater importance is the fact that really nice coins can be added to collections now at very favorable prices. When a collector finds a desired coin at a reasonable price, it's a sale; the rarer the coin, the quicker the sale when the price is right. Collector demand has been keeping dealers busy, and shows every sign of continuing to do so.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows, and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence: presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the week prior to publication (*w*eek old); "**m**" – Lowest asking price during the previous three weeks (*m*onth old); "**t**" – *T*rade during the most recent month; "**lm**" – Lowest asking price appearing *l*ast *m*onth; "**lt**" Trade appearing *l*ast month; "**ot**" Trade older than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder
In these cases, a more accurate reflection of a coin's true value may be found in the CDN albeit, on a sight basis

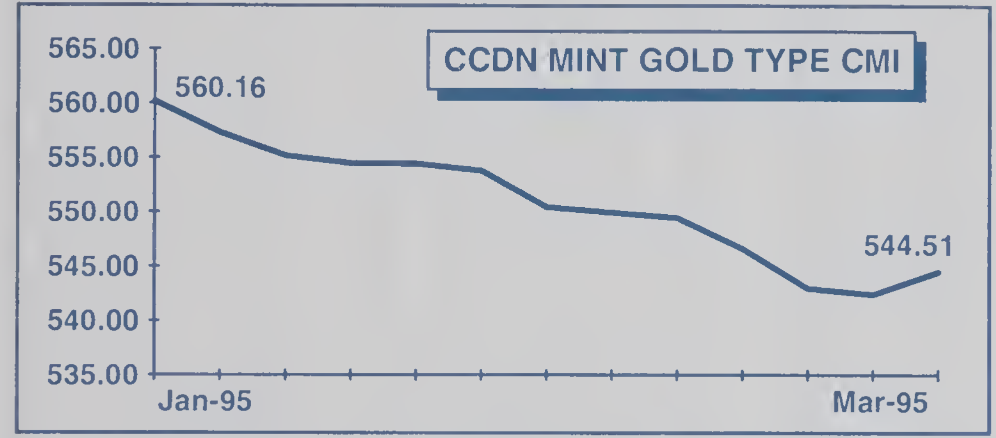
Selective Demand Offsets Market Declines
Bowers & Merena Sales Realize $1.8 Million

While there are several underlying causes for the weakness in the current market, most dealers will focus on the recent inability of Mint State Gold to sustain even a minor rally. Since Autumn of last year (the most recent attempt at an upturn), the Mint State Gold Type *CMI* has been on a steady slide until this week. In the first *Bluesheet* of 1995, the Gold *CMI* stood at 560.16; this issue reports a *CMI* of 544.51, a 2.10 climb from last week's 1995 low of 542.41. Over that same time period, Gold Spot declined from $383 to $382 — not much causal relationship there! Actually, let's look a little closer at spot; over the last thirteen weeks, our weekly *Greysheet* 'fixings' showed vacillations between a low of $373 to a high of $385. Still, not a clue in sight. Since January, the world has suffered continued fighting in too many hot spots, chemical warfare, the reality of Iraqi 'justice', and the ubiquitous spectacle of American jurisprudence. Spot jiggles a bit, oblivious to "underlying events," and the *CMI* slides and rises oblivious to Spot. Maybe mutual funds are easier to understand.



Auctions continue to attract the attention (and dollars) of dealers and collectors alike. Auctions by Bowers & Merena has just concluded two sales in conjunction with the Suburban Washington/Baltimore Convention held in Baltimore. Part II (of 4!) of the Armand Champa Library realized over $300,000 as numismatists vied for the privilege of adding one of these pedigreed rarities to their libraries. The Herman Halpern Collection Sale, heavy in Canadian and other World coins and currencies, realized nearly $1.5 million. The most intriguing coin in the sale (uncertified, and likely to remain so?) was the curious rarity 1796 NC-7 Large Cent struck over a 1797 Lettered Edge Half Cent; estimated at $5,000 to $10,000, fierce Bidding drove the price up to $30,800! A generous selection of rare-date gold performed particularly well.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

**The future
of the
coin business
will be decided
in this session of Congress**

~ ***Your Future Is Up To You*** ~

**Let Congress know
that you care**

Now!

The future of the coin business is b

Can you remember when you and your dealer-friends had never heard of the FTC? When at least one of you didn't know your local IRS agent on a first-name basis? When a major attraction for investors buying coins and bullion was being able to accumulate assets without the prying eyes of the government? When a trip to Long Beach didn't require a visit from the California Board of Equalization? Welcome to numismatics in the 1990s, and ICTA's latest important, no, *critical* project. The plain truth is that the coin-business is now bound up with the government-business, more than ever before, and if coin dealers wish to succeed, they need to have an effective organization to act as their guide in the always perplexing, and sometimes antagonistic, halls of government.

The Coalition for Equitable Taxation (*CET*), led by the Industry Council for Tangible Assets (ICTA), seeks to expand the list of items acceptable for placement into individually-directed retirement accounts (IRAs, Keogh Plans, 401Ks & others). Under current law, only U.S. Gold and Silver Eagles are permitted, and only in IRA accounts. During the boom years in the 1970s, coins were allowed in Retirement accounts, and both dealers and their clients prospered. Effective 1982, Congress excluded collectibles from tax-advantaged retirement plans, but in 1986 U.S. Mint gold & silver Eagles were excepted from the definition of "collectible" (thereby allowing them)! The *CET* seeks to have selected rare coins and precious metal products likewise excepted.

Thanks to the work of the *CET*, Senator John Breaux (D-LA ~ Democrat from Louisiana) and Senator William Roth (R-DE ~ Republican from Delaware) introduced Senate Bill S.12 in January, "The Savings and Investment Incentive Act of 1995", also known as the "Super IRA" bill. This revision to current statute would restore legal tender coins and precious metals as qualified investments for individual retirement accounts (IRAs) and other individually-directed retirement plans. The House version of the "Super IRA" bill, H.R. 682, introduced by Bill Thomas (R-CA, 21st) and Richard Neal (D-MA, 2nd), also includes this important provision. Last year we called on your help to convince the House to include this, and it worked — ***you can make a difference in this process!***

The "Super IRA" bills combine investment incentive and flexibility which should help boost our nation's savings and economy. ***You need to contact your Senators and Representative to explain why they should pass these bills.*** And you need to encourage your clients to write as well. When *CET* representatives met with Senators and Representatives in January, these Members of Congress asked, in exchange for their continuing assistance, that the Coalition generate "grass roots" support for the "Super IRA" bills from the bullion and coin industries. Remember, if the coin community doesn't act now, the *CET* provision could be eliminated from the final bill!

Following are the germane reasons why your Members of Congress should support passage:

Equitable Treatment for Small Investors

Currently, legal tender coins and precious metals can be included in defined-contribution pension and profit-sharing plans (both corporate and Keogh), and in other tax-deferred or tax-exempt entities. It seems both logical and equitable that these same assets should also be an investment option for individually-directed plans. Allowing individual investors to select from the same 'menu' of options currently available to larger and corporate investors would 'level the playing field'.

Investment Stability

It is sound practice for retirement portfolios to be diversified, and to include some percentage of counter-inflationary investments. Precious metals and coins tend to experience appreciation during economic cycles that diminish the value of other financial assets. The *CET* has prepared an economic study comparing "productive vs. non-productive assets" that quantifies this aspect.

Exchanges Promote Liquidity

Bullion and legal tender coins currently trade on exchanges that offer access to on-line buy and sell prices. S.12 & H.R.682 limit coins to those that are "...certified by a recognized grading service and traded on a nationally recognized electronic network, or listed by a recognized wholesale reporting service..." While the *CET* sought a broader definition of allowable items, this limiting compromise was necessary; Congress is very concerned about values and liquidity.

You can help influence those decision

ing decided right now in Congress!

No Tax Revenue Impact

Since the *CET*'s proposal does not change the amount which individuals may invest in individually-directed retirement accounts, the Federal government will not suffer any decline in tax revenues. Senator Breaux has directed the Joint Committee on Taxation to prepare a revenue estimate on this issue; initial analysis indicates it to be revenue neutral.

Third Party Trustee Required

The *CET*'s plan requires that investments in precious metals and legal tender coins be held by a third-party trustee as defined by the IRS. These trustees ensure that retirement investments are not "consumed" in any way prior to the time distribution occurs. Legal tender coins and precious metals are both easily held by a third-party trustee.

In summary, the "Super IRA" bills will help your business and your clients. It levels the playing field for the small investor, and may encourage individuals to save even more for retirement. Since it merely expands the types of products approved for IRAs and other individually-directed retirement accounts, it costs the Federal government nothing! Your Members of Congress need to be told how *you* stand on these bills, so they can determine their stand! Urge your Members of Congress to co-sponsor the appropriate legislation - ***this is an important part of the process.***

Putting it bluntly, every dealer who recognizes the importance of passage of this Act to their business needs to write and/or call their Representatives and Senators; and then send a copy of their letters to *CET*. *CET*'s efforts need the support of all dealers through direct participation — ***write those letters!*** Writing letters to Congress is probably on a par with trips to the dentist, but to not write *now* is counterproductive. On a revenue-neutral proposal, Congress will listen to the voters! If business is bad, think about why business is bad. You can make a difference, just as we did in *ICTA*'s stunning success in clarifying the IRS's Regulation 6045 defining "broker" reporting. Enough preaching.

The *Coin Dealer Newsletter* and *ICTA* wish to acknowledge the substantial contributions of:

Professional Coin Grading Service
Numismatic Guaranty Corp.

Their continuing monthly support has enabled the *Coalition for Equitable Taxation* to work for the benefit of all dealers.

The Future

It is extremely important that the hobby/business work ***now*** to ensure that certain legal tender coins and precious metals are afforded fair treatment by government. There are larger tax issues that would have dramatic impact on collectors, investors, and dealers. For example, high on the Republican majority's legislative agenda are changes in the capital gains tax and other important tax issues. *The CET is also seeking to ensure fair tax treatment through this legislation.*

Contacting Congress

You can help pass this legislation for fair tax treatment for our products and investment options. Urge your colleagues and clients to write their Members of Congress and request their support of the "Super IRA" bills S.12 and H.R.682. The message is: "We strongly favor passage of the "Super IRA" bill because it will encourage savings and allow smaller investors the same investment options currently available to more affluent and institutional investors." Sample letters are included on the back page. Members of Congress respond to constituent pressure; they want to hear from you. Be sure your name, complete mailing address and telephone number appear on the letter. Write the letter on your stationery, and it can be hand-written. Keep it short.

You can also telephone your Members of Congress by dialing the U.S. Capitol switchboard at 202-224-3121. The Capitol switchboard can also give you the name of your Members of Congress if you know your Congressional District. You may also write to your Representatives at their local District offices; addresses and telephone numbers appear in your local telephone directory. Go over the list of Co-Sponsors on the following page; if your Members of Congress are on this list, thank them for their support in your letter!

The Honorable (First Name, Last Name)
United States Senate
Washington, DC 20510

Dear Senator (Name),

I am writing to ask that you support S.12, the Savings and Investment Act of 1995, also known as the "Super IRA" bill, introduced by Senators John Breaux and William Roth.

This legislation combines investment incentive and flexibility which should significantly boost our Nation's savings and economy. It would allow individuals like myself to have the same investment options currently available to larger and corporate investors.

I urge you to support this legislation which is so vitally important to all American investors. Thank you for your attention to this matter. I look forward to hearing from you on this issue.

Sincerely,

SENATE CO-SPONSORS

Since it was introduced by Senators Roth (R-DE) and Breaux (D-LA), S.12, the Savings and Investment Incentive Act of 1995, has accumulated 30 co-sponsors (as of Feb. 23):

Dwight Manley Inc. Is Proud to Offer The Following FINEST KNOWN Rarites to You Today

1872-CC Seated Dollar MS-64!

With a scant mintage of 3150 pieces, it is obvious why Dave Bowers estimates only 1 or 2 could possibly exist this nice. A superbly toned original Gem that would highlight any collection!

FINEST KNOWN $95,000

World's Finest Proof $5 Liberty

1896 $5 PROOF-67 Cameo!

We could go on and on with pages of adjectives to describe this awe inspiring jewel, but we will let the grade speak for itself. If it had been certified in 1989, it probably would have traded in excess of $250,000! – **Available Today @ $72,500**

1893-S $5 MS-65

A stunning example of this gorgeous James Longacre designed gold piece. This population 1 wonder coin won't last long at **$11,000**

1850 Seated Dollar PROOF-64!

A classic rarity of the Seated series, this richly toned Gem is one of only 7 estimated to exist in all grades! **$29,500**

1885 25¢ PROOF-67 Cameo

Looks like it was struck yesterday. Finest Known, with a 1990 high of $20,000. Seems like a steal at only **$5,250**

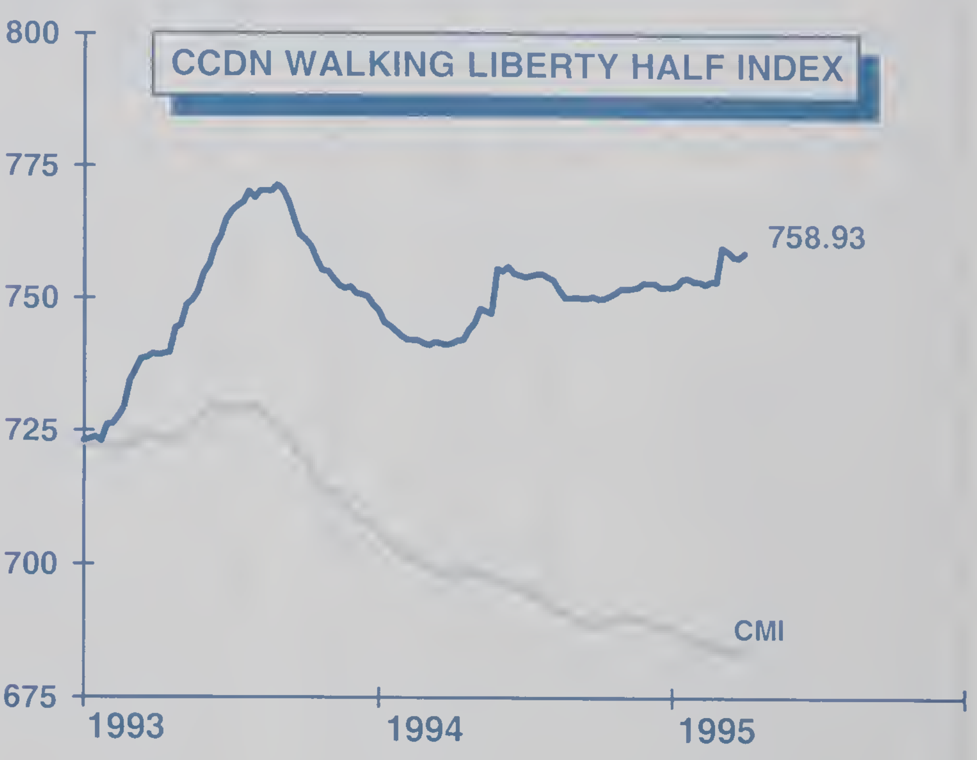
Mint State Gold Rises With & Without Spot
Buffalo Nickels & Walkers Also Hot

We've been moaning about low prices in Gold for so long that the market finally responded. OK, OK, we know that Gold Type didn't rise just to give us the pleasure of a positive headline. We also know that the current wisdom is that Bullion prices are rising because of the recent weakness of the Dollar. Maybe, but the *weakness* of the Dollar makes about as much sense as our 'headline' theory. The Dollar gets weak *after* we take a couple of major strides down the road of fiscal responsibility? The Dollar stayed strong through a couple of wars, floods, earthquakes, the Peso, the Baseball strike, and new highs in the Dow Jones. Then faced with the prospect of a reduced Federal budget and some tax relief, the Yen and Mark drive the Dollar down. Personally, I find Bullion & Currency markets a little scary; such illogic is reason enough to hold rare coins in a portfolio of investments!

It's more fun to talk about the sustained rise in Buffalo Nickels, and certainly easier to understand in the supply/demand context. A few dealers are raising their Bids on many different Buffaloes (many with low populations). The higher prices, in theory, should entice the sale of existing specimens, and encourage Buffalo specialists to submit their Gems for certification. When the low-pop Gems appear at auction, they are bringing handsome prices.

This week's rise in Walking Liberty Halves, on the other hand, is being driven by many participants. During 1991 & 1992, the Walker CMI virtually matched the overall market CMI. Starting in 1993, Walkers began to consistently outperform the overall market. The Walker CMI has stayed within a narrow range (with our usual chart scaling, they trace a nearly horizontal line!), and has been rising for the past year.



Advances on the Mint State Gold, Buffalo Nickel and Walking Liberty Half charts accounted for more than 80% of this week's plus signs. News on the other charts is less optimistic, with the usual scattered declines outgunning the selected advances.

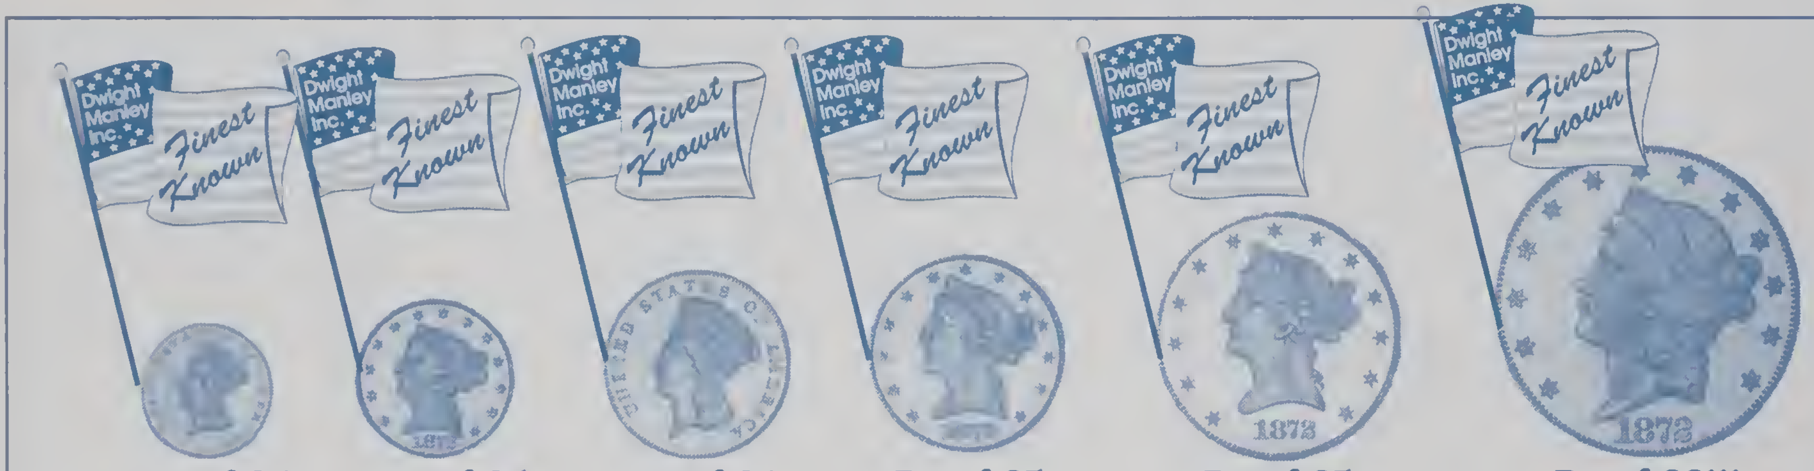
1872 Gold Proof Set

This truly is the **GREATEST** Gold Proof Set we have ***ever*** handled. Compared to previous matte and brilliant proof gold sets we've sold, this set clearly is the best! It has absolutely everything going for it:

Rarity Each coin has a mintage of only 30 pieces! Coupled with the extremely low business strike mintages, 1872 is one of the most desirable dates in the entire gold series! This is the only known **complete original matched** set in private hands today!

Eye Appeal All six pieces in this ensemble are 100% fully struck black & white cameo monsters. They each have flawless surfaces and smooth creamy cheeks.

Quality Every single piece in this set is the **finest known!** Graded both by NGC & PCGS (currently in PCGS holders), there are no 1872 proof gold coins finer than anything in this set! The grades are as follows:



Proof-65 **Proof-65** **Proof-64** **Proof-65** **Proof-65** **Proof-66!!!**

We can only speculate how many millions this would have sold for during the 1989/90 Bull market, so we won't even try. For reference, we will point out that a Type II Proof-65 $20 sold for $308,000 in a 1990 Superior auction.

Call today and confidentially discuss our convenient options on purchasing this King of American Proof Sets.

The World's Most Important Coins Are Graded by PCGS...Are Yours?

Why are the world's most important coins graded by PCGS?

Because when a discriminating collector goes to the ends of the earth to select the finest known coins for his collection, you can bet he's going to insist on having those coins graded by the most respected and reliable third-party grading service in numismatics — the Professional Coin Grading Service.

But regardless of the size or significance of your collection, we know the importance you place on your coins. We grade each and every coin with equal care — regardless of value or pedigree.

And like the coin pictured here, your personal numismatic masterpieces deserve to benefit from the strict, unwavering grading standard upon which PCGS has built its reputation.

Like the beauty of this coin, PCGS's grading standard has withstood the test of time — and the rigorous demands of the rare coin marketplace — because PCGS's standard remains constant through all market conditions.

PCGS represents professional integrity and grading accuracy to coin buyers and sellers throughout the rare coin community. Time and again, more professional coin dealers, the finest auction houses, the country's most noted collectors, and the coin-buying public depend on PCGS to grade their important coins. The confidence they have shown in our product proves that PCGS is the grading service of choice!

PCGS's grading staff is renowned for its expertise and is comprised of many lifetimes of experience in all facets of numismatics. Assigning the proper grades to our customers' coins has always been our first priority.

And nowhere is PCGS's ongoing commitment to consumer protection and satisfaction more evident than in its cash-backed Guarantee of Grade and Authenticity.

PCGS grades coins from the United States and more than 80 foreign countries. We offer a variety of super-fast turn-around and economy services starting at only $15 per coin. Contact the PCGS customer service department at 1-800-447-8848 for a free list of PCGS authorized dealers nationwide who can assist you in determining which services are right for your coins.

So whether your numismatic masterpiece is worth $50 or $500,000, your coins deserve to be graded by PCGS because every coin we grade is an important coin.

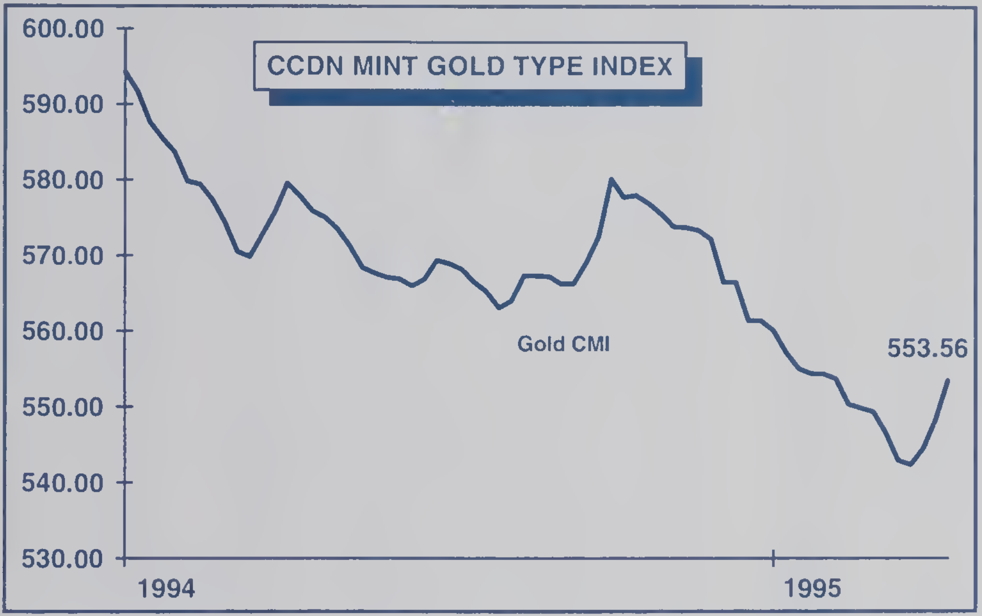
Selected Series Keep Market Hopping
Hot: Gold, Buffs, Mercs, Silver Commems

The current market is characterized by very selective Bidding; selective in regards to the series in favor, and selective in regards to specific coins within the favored series. In this week's *Bluesheet*, Silver Commemoratives showed some healthy advances in *sight-unseen* Bidding, while the latest *Greysheet* showed declines in *sight-seen* Bids for Silver Commems. That makes this week something of a rarity, with *sight-seen* Bids for a series declining while *sight-unseen* rose; frankly, the opposite has been much more typical! Most of the Commem advances were in MS65 & above.



Mint State Gold Type turned in a staggering performance, made all the more remarkable in a week that has seen little movement in Spot. With 67 advances against only 3 declines, Gold is showing some much needed signs of life. While we don't like to dwell on "bad news", it remains an unfortunate fact that the Gold *CMI* has been hovering around 550 for far too long. We like a bargain as well as the next numismatist, but dealers cannot survive forever with one of the 'hearts' of the market beating only sporadically. Most of the Gold advances will be found in MS65 & below.

Buffalo Nickels continue their long-term rise, with nearly three dozen Bids on high-grade/low-pop coins climbing. Mercury Dimes, which have been showing sporadic Bidding interest, were "on again" this week with two dozen advances. The Buffalo plus signs are scattered across the chart, while the Mercury advances are in the later dates. Walking Liberty Half Dollars, another collector favorite, have also been showing some solid advances of late, but remain quiet in this week's CCDN.

To reinforce just *how selective* this market can be, we point to one statistic: the plus signs in just these four charts (of the twelve weekly charts) account for 86% of all advances in this Bluesheet. In the other eight charts, we have what can only be called a "balanced market, with a summary count of only 27 advances and only 27 declines. This is a *steady* market punctuated by occasional bouts of selected Bidding pushing a few prices up, and selected discounts pushing a few prices down.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective (on one or both sides), with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

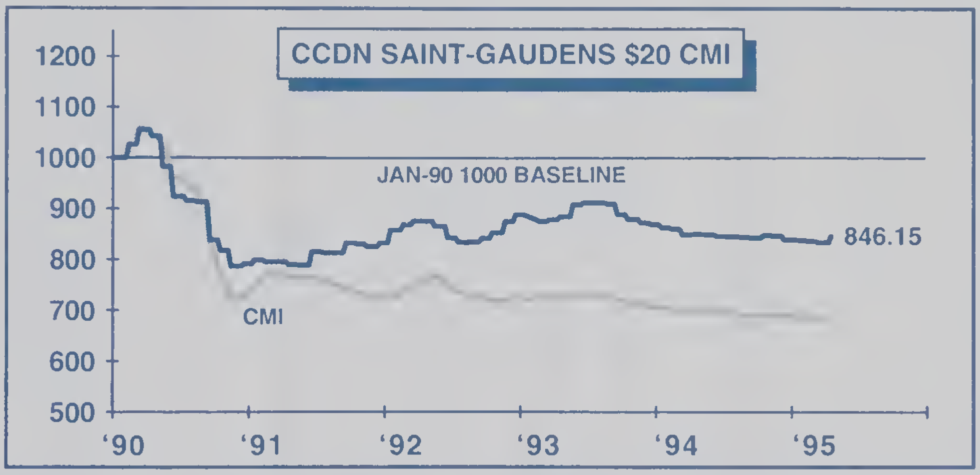
Good News In Small Packages
CMI Rises for Second Week

The ***Certified Coin Dealer Newsletter** Coin Market Index*, which we abbreviate *CMI* for all of the obvious reasons, is the only broad-based indicator of market strength and direction available to dealers. Like any such index in any marketplace, there are caveats in its use, to be sure, but this *Bluesheet* exclusive remains a handy device for simply communicating complex information. During the last two weeks, it has been the source of very welcome information about the rising of the overall market. Driven by higher prices in Mint State Gold (mostly MS61 through MS65), the market has been responding with generally higher Bids and more active bidding across most of the charts. We would prefer, naturally, that the *CMI* communicate such positive information about the market rising *every* week, but numismatists have not had much of that pleasure lately.

During 1994, the *CMI* declined from 706.18 to 688.52, showing "up" figures only eleven times; so far in 1995, the *CMI* moved downwards to 683.43. Against that dismal showing, we now have the "good news" of the second week of increases in a row. Since January of 1994, the longest string of rising *CMI* figures has been three weeks; we are already two-thirds of the way towards tying the streak! Go Gold! Go Commems! Go Buffs!



This week's increases can be seen throughout the *Bluesheet*. Silver Commemoratives are showing advances, with unusual strength in the MS66 & MS67 columns. Some Gold Commem plus signs can be located in the MS65 & MS66 columns. Morgan & Peace Dollars both weighed in on the plus side this week; the Morgan advances were mostly found in MS64 and below, while the Peace Dollars climbed on MS64 & MS65 generics.

Mint State Type, which has been an anchor holding back several rally attempts, is on the minus side of steady; Proof Type is showing a dozen scattered advances, so hope remains eternal. The specialty series turned in a mixed performance this week. Buffalo Nickels, as has been their custom, turned in a spectacular week with another 77 advances; most can be found in the MS63 & MS64 columns, but more are scattered through MS67 as well. Mercury Dimes were quiet and just on the bottom side of steady; Walking Liberty Halves were quiet, and just on the top side of steady. Proof Singles were steady.

The Gold Rally couldn't have come at a better time for this week's Supplemental chart on the Saint-Gaudens Double Eagles. These coins have been among the best enduring values in the market, as their CMI indicates. As has been the case with most advances in Gold coins, the plus signs are mostly appearing in the MS61 through MS65 columns.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

JAY PARRINO
President, The Mint

I wouldn't argue that I'm a coin collector at heart, but when it comes to business, I need to sell as many coins as I can.

That's why I like NGC Photo Proof. Photo Proof allows me to show my inventory to more clients than ever before-and that means I can sell more coins than ever before. As a coin dealer, that's the bottom line. I can use Photo Proofs to show my inventory at trade shows while the actual coins remain at my primary location, selling as they normally do. I can even send duplicate Photo Proofs to clients, using them to interest valuable customers in particular coins, or to entice them into collecting a different variety.

And collectors like the handsome presentation of Photo Proofs. Photo Proofs are four-page folders featuring digitized photographs of the subject coin's obverse and reverse and may include close-up detail photographs of unique aspects of a coin often related to its attribution or variety. Because Photo Proofs combine these exquisite photographs with fascinating tales of the coin's history, they will excite your clients to learn and collect even more. For a collector, Photo Proof is a great way to enjoy a coin; for a dealer, Photo Proof is a great way to sell one.

Photo Proof is available at authorized NGC dealers nationwide. For more information and your local dealers, call 1-800-PROOF67.

> "With NGC Photo Proof, I can let the beauty of my coins work for me."

Don't

DON'T sell your coins before you should just to raise money.

DON'T miss out on submitting your certified coins just because you need the cash flow.

DON'T sell your coins too early and let others make all the money off of YOUR coins.

DON'T even think of bringing in a money partner on a deal unless that partner is the sharpest, strongest, most savvy coin dealer in the world.

Wouldn't you love to have all the benefits of having HERITAGE RARE COIN GALLERIES finance your deals? No more pressure to sell for cash flow. Our financial resources are virtually unlimited. Our SIX staff graders have graded at PCGS, NGC and ANACS. They know the ins and outs of certification. Our sales outlets are the best, whether we sell at shows, through our ads or catalogs or through major national retailers we supply.

CAPITAL AVAILABLE

Would you expect your partner to do any less? When you bring HERITAGE in to help with your deal you will almost always end up with more money (most of the time a LOT more money) than if you had sold the deal outright yourself.

Call Greg Rohan or Lee Sanders to discuss any type of joint venture you have in mind. We are flexible, creative, friendly and open minded. Call us today at

1-800-872-6467.

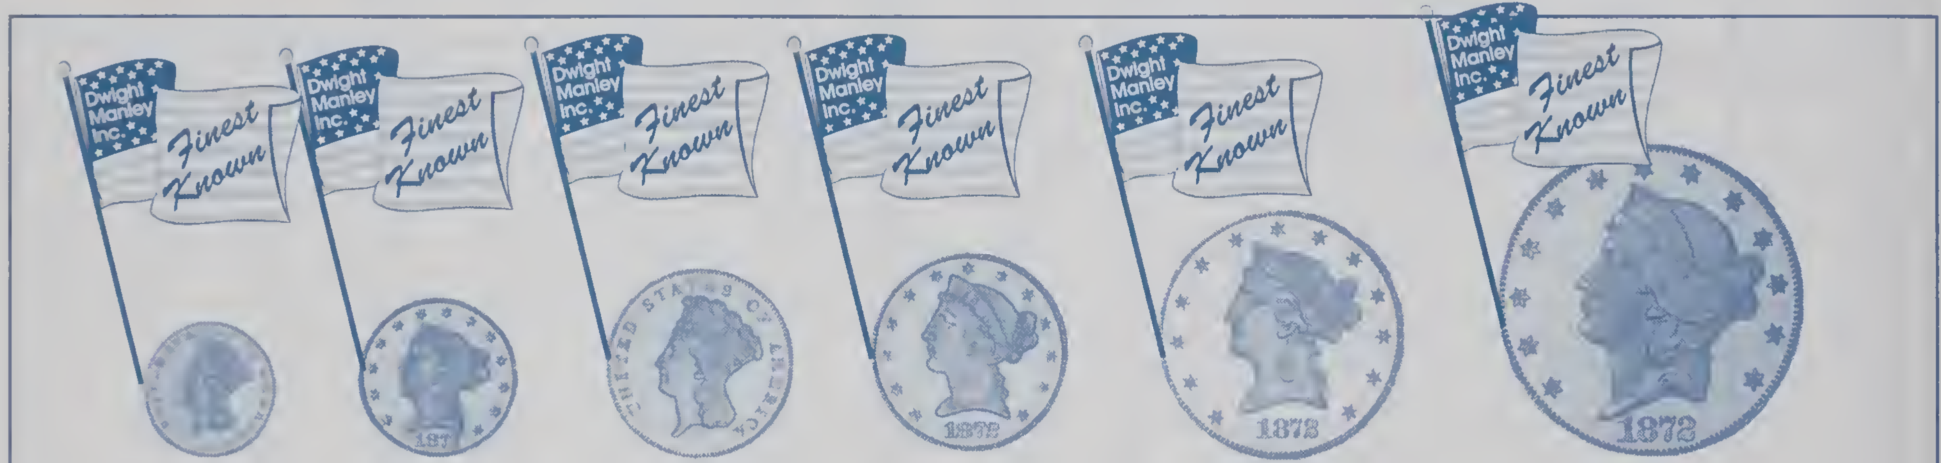
1872 Gold Proof Set

This truly is the **GREATEST** Gold Proof Set we have ***ever*** handled. Compared to previous matte and brilliant proof gold sets we've sold, this set clearly is the best! It has absolutely everything going for it:

Rarity Each coin has a mintage of only 30 pieces! Coupled with the extremely low business strike mintages, 1872 is one of the most desirable dates in the entire gold series! This is the only known **complete original matched** set in private hands today!

Eye Appeal All six pieces in this ensemble are 100% fully struck black & white cameo monsters. They each have flawless surfaces and smooth creamy cheeks.

Quality Every single piece in this set is the **finest known!** Graded both by NGC & PCGS (currently in PCGS holders), there are no 1872 proof gold coins finer than anything in this set! The grades are as follows:



Proof-65 **Proof-65** **Proof-64** **Proof-65** **Proof-65** **Proof-66!!!**

We can only speculate how many millions this would have sold for during the 1989/90 Bull market, so we won't even try. For reference, we will point out that a Type II Proof-65 $20 sold for $308,000 in a 1990 Superior auction.

Call today and confidentially discuss our convenient options on purchasing this King of American Proof Sets.

Respectfully offered at

$475,000

More Market Segments Strengthen
Stack's Sale Features No Motto Half Eagles

The market is being moved upwards on the Bidding strength evidenced on a growing number of our charts. Mint State Gold is continuing a solid move, especially in MS65 and below; we repeat the obvious that these increases are occurring *despite* a steady/dropping Spot. Morgan Dollars, which were steady last week, enjoy more than a hundred plus signs in this *Bluesheet*. While the Morgan advances could be found across the MS61-MS65 columns, many were concentrated on NGC coins. Peace Dollars showed almost as many advances as the Morgans, despite the smaller number of issues; both services were active in grades MS60 though MS65. The specialty series were all strong this week, with more than 140 plus signs between them: the early-date Buffs showed advances across the columns, although most often in MS63 through MS65; the Mercs were strongest in MS65FB and MS66FB; late-date Walkers climbed in MS65 and MS66. Dealers expressed pleasure at having the 'thundering herd' joined by the Mercury Dimes and Walking Liberty Halves in the same week!

The remaining charts were mainly steady, with scattered discounted sells balancing selected advances. Silver & Gold Commemoratives, which showed some strength in last week's *Bluesheet*, were quiet again; dealers appear content at current levels. Mint State Type and Proof Type were both very stable this week. The only noticeable weakness in the market remains the lack of Bidding support on many MS66 and MS67 coins; that trend extends back to the large declines of 1990. All together, the market had sufficient strength to move the CMI upwards (remember, that's the *third* consecutive week).

In addition to the good news of all the advances in this *CCDN*, there is the 'invisible' strength of increased Bidding activity and trading at current levels. Such trading may not always produce plus or minus signs, but it surely produces a healthy market. And even healthier is knowing that all of this activity and all these advances are taking place with many dealers at the Central States Numismatic Society Coin Show being held in Milwaukee. Heritage Numismatic Auctions is hosting one of their Bullet Sales in Milwaukee at Central States; we will report highlights of the sale next week.

Stack's Auction Sale, being held May 2 & 3, includes the remarkable Edward Milas Collection of No Motto Half Eagles. More than 100 coins of the highest quality and rarity make this the finest Date and Mint Collection currently in private hands. Each of the coins has been certified by NGC; the majority are either 'finest known' or tied for that distinguished honor, and many bear a distinguished pedigree. Additionally, each successful Bidder will receive one of NGC's new PHOTO PROOFS. Coins are included from each of the five mints producing $5s: Philadelphia, San Francisco, New Orleans, Dahlonega and Charlotte. With a list of highlights that includes all 103 coins, it is almost easier to mention what isn't included - in fact, when Milas began his collection, he knew that some dates were unobtainable. Here is perfect proof that 'completeness' is not a requirement for a world-class collection. Because we cannot resist dreaming, we will mention three favorites: the 1839-D in NGC62; the 1842-O in NGC63 (ex Eliasberg-1982, Clapp-1942, Earle-1912); the 1859-C in NGC66 (ex Eliasberg-1982, Clapp-1942, Sears-1910). Bidders at this spectacular sale will get to choose their own favorites.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight-unseen Bids Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer–to–dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows, and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the week prior to publication (*w*eek old); "**m**" – Lowest asking price during the previous three weeks (*m*onth old); "**t**" – *T*rade during the most recent month; "**lm**" – Lowest asking price appearing *l*ast *m*onth; "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade older than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight–unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Market Still Strengthening
Certified Coins Highlight Auctions

Bid levels for certified Mint State Gold Type continue to rise, in reaction to growing retail demand. Dealers are quick to note that most of the demand is for "garden variety" gold - and no, that is not a newly discovered die! Most of the retail buyers are interested in buying nice-looking, average quality (for the grade) gold coins. While there are a few dealers still offering large premiums for "unspotted" gold coins, this specific demand for "perfect" coins is not spreading throughout the market. "Good-old garden variety" Mint State Gold coins, the kind of coins in every dealer's inventory, are again in greater demand from retail buyers. It is this widespread demand for *typical* coins that is giving dealers hope for continued market strengthening.

Retail demand continues to be most visible in selected Bluesheet series. In addition to the plethora of pluses in Mint State Gold Type, solid advances were seen in Buffalo Nickels and Silver Commemoratives. Electronic Bids have remained remarkably stable, considering that most major dealers are only now returning from Milwaukee and getting their inventories "worked up".

Certified coins continue to make headlines on the auction scene. Heritage Numismatic Auctions presented one of their Bullet Sales at the Central States Numismatic Society Coin Show last Friday, which realized $308,566.

Stack's Sale of United States Coins, held this week in New York, likewise yielded impressive results, with a total Prices Realized exceeding $4 million. The attention of Gold Collectors was riveted upon several great collections. The Milas Collection of No Motto Half Eagles, quite simply the most exquisite group ever to be collected and sold, enjoyed frantic Bidding at times. With 79 of the Milas coins among the 'finest knowns', you just knew that rarity combined with quality would result in some fierce battles for ownership. The Milas Collection realized more than $2.3 million before the night was over. Each of the coins was certified by NGC, and each successful Bidder received a complimentary NGC PHOTO PROOF; this is a marketing technique which we had not seen before, but will certainly see again! Collectors & dealers alike competed for other rarities from the Nineteenth Century Gold series, with an abundance of Charlotte and Dahlonega material.

NEED TO MAIL?

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the

1995 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list averaging 5,000+ current names and addresses. And **current** is a promise taken seriously - the data base is updated **daily**. All for only $325 - well below the mailing industry standard of $75/thousand.

To make this offer even more attractive, labels are available in both First Class - Zip Code order or Presorted for Third Class - Basic Bulk Rate mailings (you can save more than $425 over First Class postage rates!). Need just one state or region? Need a trial sample? Contact us for details!

Steady Market Becoming Strong Market Plus Signs on All Charts

The market continues to strengthen this week, with a broad-based advance. For the first time in "way too long", the *Bluesheet* shows more plus signs than declines in *every one* of the weekly charts. Adding to the good news is the fact that our *CMI* has now risen for five consecutive weeks (keeping in mind that since the end of 1993, the longest positive streak had been three weeks). The pessimists will look at these advances and note that many of them are for small amounts; the optimists will say 'thank you, we'll take the many small advances along with the big ones!". Many dealers are actually grateful for the small advances; a steadily rising market is quite preferable to more volatile increases, in their opinion.

Let's take a quick tour through the charts. Silver Commemoratives were largely steady, with scattered changes; demand here seems to be quite content to trade at these levels. Gold Commems were steady, with a handful of increases in the MS65 and MS66 columns. Morgan Dollars, one of the charts critical to the success of any market rally, continue on the strong side of steady; plus signs are scattered, with determined bidding making its presence known on NGC certified Morgans. Peace Dollars were likewise steady, with upward movement in the MS64/65 generics.

Mint State Type coins, which have been largely quiet this year, remain so; while their steady nature has been much appreciated, dealers are equally glad to finally be seeing a few dozen advances. The plus signs on the Mint State Type chart are largely to be found in the MS65 and MS66 columns, grades that have seen few changes. Mint State Gold Type continues to be a driving force in this "budding rally", with plus signs dominating in the MS61 through MS65 columns.

Activity is picking up a little in the Proof Type chart, which has been steady for a year (actually, over the last 52 weeks, the Proof Type *CMI* has dropped about 12 points; that is a perfect example of the market's behavior over the last year: "just south of steady"). Unusually, most of the Proof Type advances are to be found in the Pr65 and above columns, the quietest portion of this part of a quiet market. Changes in the steady Proof Gold Type chart can be counted on one hand, but they are all advances.

The "good news" continues in the specialty series. The Buffalo Nickels, the source of much of the market's good news for two years, turned in an "OK" week, with most of the advances in the MS63 & MS64 middle-dates. Mercury Dimes were also moderately active, with advances continuing in the MS65 Full Band and MS66 Full Band columns. The good news in Buffalo Nickels and Mercury Dimes goes well with the great news in Walkers. Walking Liberty Half Dollars enjoyed a spectacular week, with plus signs on nearly 10% of the issues. Many of the advances are found in the post-1937 issues. Proof Singles remain steady, with balanced changes indicating the operation of a healthy market.

Certified coins will be found among the highlights of Bowers and Merena's upcoming Kenneth C. Long Collection, being held May 26-27 in Los Angeles. Interest will be strong for the 38 certified Liberty Seated Dollar proofs. High-quality Type slabs will also be in demand:

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are nea or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuat according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN albeit, on a sight basis.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective (on one or both sides), with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

"Why You Need the *New* PCGS Population Report..."

IF you're an active participant in today's rare coin marketplace and an owner of PCGS coins, YOU NEED THE PCGS POPULATION REPORT. With this report, you get immediate access to one of the most influential numismatic tools available for gauging the value of your PCGS coins.

Every issue of the PCGS Population Report is an easy-to-use, finger-tip reference filled with valuable information compiled by the world's leading third party coin grading service, the Professional Coin Grading Service (PCGS).

Know More About Your Coins

More coin collectors, investors and professional coin dealers choose PCGS than any other third-party grading service in the world for the accurate grading of their valuable coins. In fact, PCGS has graded more coins than all the other grading services combined. Now, all this population data is available to you through the PCGS Population Report.

Benefit from New Features

Today, the PCGS Population Report is even better than ever. This guide has just been redesigned into a format that is even more valuable and "user friendly."

You now get population data every month for both circulated and uncirculated coins in the PCGS Population Report's new landscape format. Grades are now listed together from 1 to 70 every single month.

Quarterly reports (January, April, July, and October issues) contain census data for all U.S. coins, including patterns, modern issues, and territorial issues.

New columns, which include expanded mintage figures and grading totals, have also been added to make this reference guide even more useful.

The easy-to-read, step-by-step User's Guide helps you get the information you need from the PCGS Population Report. A comprehensive Glossary of terms is also included which defines abbreviations and individual characteristics of your coins.

Subscribe Today

If you're serious about the rare coin market, this is valuable information you can't afford to be without. Whether you are a professional coin dealer, collector, or investor, the PCGS Population Report gives you the most comprehensive and timely population information available anywhere for determining facts pertinent to your own PCGS coins.

To take advantage of the ultimate "informed source" from the industry's leading independent rare coin grading service, just **call us toll-free at 1-800-447-8848** to order the PCGS Population Report or send in the coupon below.

Market Stronger Again
Demand Also Steadying Market

Plus signs are still the 'order of the week,' with selected charts enjoying these benefits of added demand. Dealers are happy buying and selling at current levels, and are even willing to stretch for coins they really need; this growing demand at current levels translates nicely into a steadier market. The plus signs, naturally, also put us on the *plus side of steady* (oh, to be able to retire the "just South of Steady" phrase that has been with us for several years). And the good news continues with the overall *CMI* rising for the sixth week!

Dealers are attributing the growing strength in the market to increased retail demand, but seem unable to agree on the causes for the sudden surge in retail sales; of course, many dealers are too busy buying and selling coins to their new (and old!) customers to have the time to speculate. There is much to be said for "spinning gold while the sun shines," and the mixed-metaphor can be forgiven in the delight of an active market. The point is well taken that dealers have to "throw themselves" into markets like this in order to find the coins and satisfy the demands of their customers. They may grouse that demand always seems to come in waves, but that is the nature of a market turn-around in a supply-demand marketplace.

Silver Commemoratives were active, with declines just nudging out advances, and their *CMI* declining modestly. The four declines in Gold Commems demonstrate the danger of relying too heavily on the "simple" plus or minus sign, since these declines resulted from a few substantial discounted sells, and account for their *CMI* drop. Morgan Dollars, on the other hand, have provided a substantial upward move (nearly 100 plus signs!) in a very important market segment. Peace Dollars, which had been following the lead of the Morgans, were quiet this week.

Mint State Type was very quiet, with all the changes countable on two hands; this remains one *steady* market segment. The same could be said of Proof Type, with 99% of the Bid levels steady. This kind of quiet strength, according to many dealers, is just what the market needs — a stronger foundation on which advances can build. Mint State Gold Type continued its upward surge, making this area the hottest in the market. Maybe retail customers are looking for a place to park all those stock market profits... The Proof Gold Type *CMI* rose modestly on a handful of advances.

Among the specialty series, Buffalo Nickels and Walking Liberty Halves showed some welcome advances. A steady Mercury Dime chart managed a *CMI* drop courtesy of only eight discounted sells; only a few declines, but they count when there are even fewer advances. Proof Singles were steady.

Collectors and dealers are just about half-way through the Auction smorgasbord that the merry month of May has presented. Butterfield•Johnson•Gillio will be presenting United States and World Coins, Medals and Banknotes, Gold Nuggets and Specimens on May 30 in Los Angeles. Neither the 500+ rolls nor the great-looking nuggets have been slabbed, but some very pretty coins have: (see highlights)

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.
